'The speedy retirement of Office for Mac 2008 is not new: for Office for Mac 2004, which was shut down in January 2012.. But it will not be served with security updates after April 9 [ ] For some reason, Microsoft considers all editions of Office for Windows as business products, no matter that some -- like Home and Student -- cannot be used for commercial purposes.

But certain business partners might still need to use iTunes to install apps Install apps with iTunes If you've already installed a newer version of iTunes, you can download this version of iTunes 1 for your Mac 2, PC (32-bit), or PC (64-bit) and run the installer.. Office for Mac 2008 will not suddenly stop working next week; it will launch, and let users create, edit and print documents.. Skype for Business on Mac, Lync for Mac 2011 and Communicator for Mac 2011 users can't control desktops shared by Windows users.. 'This extension does not change the five-year support policy for other Office for Mac products, including future versions,' a senior product manager said then.. Microsoft supports the Windows versions of Office, even those that target consumers, for 10 years, or twice as long as it does Office for the Mac.
